Route to SystemController Method Mapping

system.reports.errors

- Path: `/admin/reports`

- Controller Method: `admin_report_site_controller`

system.error.page.denied

- Path: `/error/page/access-denied`

- Controller Method: `system_error_page_denied`

system.user.filter.page

- Path: `/user/search/[search:string]/[content_name:string]/auto`

- Controller Method: `system_user_filter_auto_page`

system.reference.filter.page

- Path: `/reference/field/filter`

- Controller Method: `system_reference_filter`

user.account.login.form.route

- Path: `/user/login`

- Controller Method: `user_login_form_controller`

user.account.google.redirect.route

- Path: `/user/oauth/google/access`

- Controller Method: `user_login_google_redirect_controller`

user.account.github.redirect.route

- Path: `/user/oauth/github/access`

- Controller Method: `user_login_github_redirect_controller`

user.account.logout.route

- Path: `/user/logout`

- Controller Method: `user_logout_controller`

system.messager.toastify

- Path: `/system/messages`

- Controller Method: `toastify_controller`

system.assets.loader

- Path: `/system/assets/file`

- Controller Method: `assets_loader_controller`

system.people

- Path: `/admin/people`

- Controller Method: `people_controller`

system.account.delete

- Path: `/user/[uid:int]/delete`

- Controller Method: `account_delete_controller`

system.account.edit

- Path: `/user/[uid:int]/edit`

- Controller Method: `account_edit_controller`

system.account.view

- Path: `/user/[uid:int]`

- Controller Method: `account_controller`

system.account.profile.edit

- Path: `/user/[uid:int]/profile/edit`

- Controller Method: `account_profile_edit_controller`

system.configuration

- Path: `/admin/config`

- Controller Method: `configuration_controller`

system.configuration.basic

- Path: `/admin/config/system/site-information`

- Controller Method: `configuration_basic_site_controller`

system.configuration.account

- Path: `/admin/config/people/accounts`

- Controller Method: `configuration_account_controller`

system.configuration.smtp

- Path: `/admin/config/smtp`

- Controller Method: `configuration_smtp_controller`

system.configuration.logger

- Path: `/admin/config/development/settings`

- Controller Method: `configuration_logger_controller`

system.structure

- Path: `/admin/structure`

- Controller Method: `structure_controller`

system.structure.content-type

- Path: `/admin/structure/types`

- Controller Method: `structure_content_type_controller`

system.structure.content-type.form

- Path: `/admin/structure/types/new`

- Controller Method: `structure_content_type_form_controller`

system.structure.content-type.edit

- Path: `/admin/structure/content-type/[machine_name:string]/edit`

- Controller Method: `content_type_edit_form_controller`

system.structure.content-type.delete

- Path: `/admin/structure/content-type/[machine_name:string]/delete`

- Controller Method: `content_type_delete_controller`

system.structure.content-type.manage

- Path: `/admin/structure/content-type/[machine_name:string]/manage`

- Controller Method: `content_type_manage_controller`

system.structure.content-type.manage.field.new

- Path: `/admin/structure/content-type/[machine_name:string]/field/new`

- Controller Method: `content_type_manage_add_field_controller`

system.structure.content-type.manage.field.type.new

- Path: `/admin/structure/content-type/[machine_name:string]/field/[type:string]/new`

- Controller Method: `content_type_manage_add_field_type_controller`

system.structure.content-type.manage.field.edit

- Path: `/admin/structure/content-type/[machine_name:string]/field/[field_name:string]/edit`

- Controller Method: `content_type_manage_edit_field_controller`

system.structure.content-type.manage.field.delete

- Path: /admin/structure/content-type/[machine_name:string]/field/[field_name:string]/delete

- Controller Method: content_type_manage_delete_field_controller

system.structure.field.wrapper.field

- Path: /admin/structure/content-type/[machine_name:string]/field/[field_name:string]/inner-fields

- Controller Method: content_structure_field_inner_manage_controller

system.structure.field.wrapper.field.inner.add

- Path: /admin/structure/content-type/[machine_name:string]/field/[field_name:string]/add/inner/new

- Controller Method: content_structure_field_inner_add_controller

system.structure.field.wrapper.field.inner.edit

- Path: /admin/structure/content-type/[machine_name:string]/field/[parent_name:string]/[field_name:string]/inner/edit

- Controller Method: content_structure_field_inner_edit_controller

system.structure.field.wrapper.field.inner.delete

- Path: /admin/structure/content-type/[machine_name:string]/field/[parent_name:string]/[field_name:string]/inner/delete

- Controller Method: content_type_manage_delete_inner_field_controller

system.structure.content

- Path: /admin/content

- Controller Method: `content_content_admin_controller`

system.structure.content.add

- Path: `/node/add`

- Controller Method: `content_content_node_add_controller`

system.structure.content.form

- Path: `/node/add/[content_name:string]`

- Controller Method: `content_node_add_controller`

system.structure.content.node

- Path: `/node/[nid:int]`

- Controller Method: `content_node_controller`

system.structure.content.form.edit

- Path: `/node/[nid:int]/edit`

- Controller Method: `content_node_add_edit_controller`

system.structure.content.form.delete

- Path: `/node/[nid:int]/delete`

- Controller Method: `content_node_add_delete_controller`

system.structure.views

- Path: `/admin/structure/views`
- Controller Method: `content_views_controller`

system.structure.views.add

- Path: `/admin/structure/views/add`
- Controller Method: `content_views_add_controller`

system.structure.views.delete

- Path: `/admin/structure/views/view/[view_name:string]/delete`
- Controller Method: `content_views_view_delete_controller`

system.structure.views.edit

- Path: `/admin/structure/views/view/[view_name:string]`
- Controller Method: `content_views_view_edit_controller`

system.structure.views.display

- Path: `/admin/structure/views/view/[view_name:string]/displays`
- Controller Method: `content_views_view_display_controller`

system.structure.views.display.edit

- Path: `/admin/structure/views/view/[view_name:string]/display/[display:string]/edit`
- Controller Method: `content_views_view_display_edit_controller`

system.search.settings

- Path: `/admin/search/settings`

- Controller Method: `admin_search_settings`

system.search.setting.add

- Path: `/admin/search/setting/new`

- Controller Method: `admin_search_settings_new`

system.search.setting.edit

- Path: `/admin/search/settings/[key:string]/edit`

- Controller Method: `admin_search_settings_edit`

system.search.setting.delete

- Path: `/admin/search/settings/[key:string]/delete`

- Controller Method: `admin_search_settings_delete`

system.search.setting.configure

- Path: `/admin/search/settings/[key:string]/configure`

- Controller Method: `admin_search_settings_configure`

system.search.setting.search

- Path: `/search/[key:string]`

- Controller Method: `admin_search_settings_search_page`

system.integration.configure.rest

- Path: `/admin/integration/rest`

- Controller Method: `integration_configure_rest`

system.integration.configure.rest.version

- Path: `/admin/integration/rest/version/[version_id:string]`

- Controller Method: `integration_configure_rest_version`

system.integration.configure.rest.version.delete

- Path: `/admin/integration/rest/version/[version_id:string]/delete`

- Controller Method: `integration_configure_rest_version_delete`

system.cron.manage

- Path: `/cron/manage`

- Controller Method: `cron_manage`

system.cron.add

- Path: `/cron/add`

- Controller Method: `cron_add`
